

Table of Contents

NOTE: Volume 1 (this book) contains Chapters 1 to 9 and the Glossary. Chapters 10 to 20 appear in Volume 2. You can search by topic in the merged index appended to each volume.

Volume 1

CHAPTER 1: GEMS AND FACETING	1
1.1 Gems	2
1.1.1 Minerals, Rocks and Stones.....	2
1.1.2 Precious and Semi-Precious Gems.....	3
1.1.3 Artificial Gemstones.....	4
1.2 Cutting and Polishing of Gemstones	6
1.3 Gemstone Cuts.....	7
1.4 Gemstone Faceting as a Hobby – A Love Letter.....	10
1.5 Getting Started with Faceting.....	11
1.6 Using this Book.....	12
CHAPTER 2: FACETING MACHINES	17
2.1 A Machine Tailored to the Task.....	18
2.1.1 A Multi-Faceted Approach	18
2.2 History and Types of Faceting Machines.....	20

2.2.1 Anatomy of a mast type faceting machine.....	21
2.2.2 Anatomy of a platform type faceting machine.....	27
2.2.3 Mast or Platform: Which is Better?	28
2.3 Left Versus Right-Handed Machines	30
2.4 Hard Versus Soft Stop	32
2.5 Machines for Polishing Diamonds	33
2.6 Your Perfect Machine.....	33
2.6.1 Things to Look For in a Faceting Machine	34
2.6.2 Other Factors.....	38
2.7 Making the Purchase.....	40
2.8 Commercial Faceting Machines	43
2.8.1 Manufacturers and Models of Common Faceting Machines	43
2.8.2 Less Common Models	45
2.8.3 Models Out of Production	49
2.9 Alternatives: Building your own machine	53
CHAPTER 3: LAPS	57
3.1 Laps for Faceting	58
3.1.1 Keeping it Smooth and Steady	58
3.1.2 A Lap for All Seasons... ..	58
3.2 Cutting Laps.....	60
3.2.1 Grit sizes	60
3.2.2 Hand Charged Cutting Laps.....	62
3.2.3 Permanently Charged Cutting Laps	67
3.2.4 Why Use Permanently Charged Cutting Laps?.....	71
3.3 Polishing Laps	73
3.3.1 Hand Charged Polishing Laps	74
3.3.2 Permanently Charged Polishing Laps	79
3.4 A Starter Set of Laps.....	82
CHAPTER 4: ADDITIONAL EQUIPMENT	85
4.1 Adhesives.....	86
4.1.1 Dop Wax.....	86
4.1.2 Cyanoacrylate Glue and Epoxy Resin	86
4.1.3 The Best Adhesive?.....	88
4.2 Alcohol lamps and Torches.....	88
4.2.1 A Hot Debate.....	89

4.3	Chemicals.....	90
4.3.1	Shellac – Alcohol Mixture.....	91
4.4	Dops.....	93
4.4.1	Purchasing Dops.....	94
4.4.2	Dop Types	95
4.4.3	Brass versus Aluminum Dops.....	97
4.4.4	Damaged Dops	97
4.5	Immersion Fluids.....	99
4.6	Index Gears.....	102
4.7	Loupes and Magnifiers	102
4.8	Lighting.....	104
4.9	Lap Accessories.....	106
4.9.1	Dressing Sticks.....	106
4.9.2	Lap Containers	107
4.9.3	Scoring and Embedding Tools	107
4.10	Logbook.....	108
4.11	Machine Add-Ons and Accessories	108
4.11.1	Dial Indicators.....	109
4.11.2	Pre-Forming Tools	109
4.11.3	Quill Sweepers and Rotators.....	109
4.11.4	Girdle Rests	109
4.11.5	Depth of Cut Indicators	110
4.11.6	Digital Angle Indicators	110
4.11.7	Saw blade adapters.....	111
4.12	Polishing Compounds	112
4.12.1	Metal Oxides.....	113
4.12.2	Diamond Bort.....	114
4.13	Protective Gear	116
4.14	Scales.....	117
4.15	Tabling Adapter	118
4.16	Transfer Jig.....	119
4.17	Miscellaneous	121
4.18	A Faceter’s Toolbox.....	129
CHAPTER 5: GEM101: YOUR FIRST GEMSTONE		131
5.1	Which Design Should I Cut?	132
5.1.1	GeM101 – The Design.....	132

5.2	Which Gem Material Should I Choose?.....	137
5.3	Selecting the Piece of Gem Rough	139
5.3.1	Look Before You Lap... ..	139
5.3.2	Orienting the Gem Rough	142
5.4	Dopping the stone	142
5.4.1	Dopping Pictorial	143
5.5	Cutting and Polishing the Pavilion	150
5.5.1	Mounting the Dop in the Faceting Machine.....	150
5.5.2	Final Pre-Flight Check	151
5.5.3	Pre-Forming the Pavilion.....	151
5.5.4	Pre-Forming the Crown?	156
5.5.5	Cutting and Polishing the Pavilion Facets	156
5.5.6	Putting the Polish on the Pavilion.....	169
5.6	Going End to End...The Dop Transfer	176
5.7	Cutting and Polishing the Crown	180
5.7.1	The Transfer Cheat	181
5.7.2	Cutting the Crown Facets.....	184
5.7.3	Polishing the Crown Facets	186
5.8	Cutting and Polishing the Table	187
5.9	Finishing Up	193
CHAPTER 6: GEM ROUGH.....	195	
6.1	Gem Rough	196
6.2	Finding Gem Rough.....	196
6.2.1	Buying from Shops	196
6.2.2	Attending Gem Shows	197
6.2.3	Trading with Friends	202
6.2.4	Dig Your Own!	203
6.3	Organizing Your Gem Rough	205
6.4	Selecting Gem Rough for Purchase	207
6.4.1	What to Look For.....	208
6.4.2	Interactions between Colour, Clarity, Size, and Shape	210
6.4.3	Other Considerations	211
6.5	Paying the Right Price	212
6.6	Synthetics and Simulants.....	218
6.6.1	Identifying Synthetics and Simulants.....	220
6.6.2	Synthetic and Simulant Gemstone Manufacturing	221

6.7 Orienting Gem Rough.....	227
6.7.1 Things to Consider in Orienting Rough	227
6.7.2 A Final Word on Orientation	235
CHAPTER 7: DOPPING.....	237
7.1 Dopping Techniques	238
7.2 Wax versus Epoxy versus Cyanoacrylate Glue	238
7.2.1 Dop Wax.....	238
7.2.2 Epoxy Resin.....	239
7.2.3 Cyanoacrylate Glue.....	240
7.3 Standard Dopping Technique	240
7.3.1 Initial Dopping	240
7.3.2 Dop Transfer	250
7.3.3 Releasing the Completed Gem	257
7.4 A Better Way?.....	258
7.4.1 Initial Dopping	258
7.4.2 Dop Transfer	266
7.4.3 Releasing the Completed Gem	269
7.5 Re-attaching a Lost Stone	270
7.5.1 Search and Rescue.....	270
7.5.2 A Perfect Fit	270
7.6 The Transfer Cheat.....	271
7.6.1 The Toothpaste Test	272
7.6.2 Test Polishing the Girdle	273
7.6.3 Mechanical Jigs	273
7.6.4 Optically Aligned Transfer – A Better Way to Cheat?	275
7.7 Cutting a Test Tier of Facets.....	282
7.7.1 The Down Side of Test Tiers.....	282
7.8 Dopping Accuracy and Yield	283
7.8.1 Using the Rough Loss Chart.....	284
CHAPTER 8: CUTTING AND POLISHING.....	285
8.1 Cutting vs Polishing.....	286
8.2 Cutting Technique	288
8.3 Pre-Forming Technique – Passive Aggression	288
8.3.1 Grinding and Sawing.....	289
8.3.2 Facet-Machine Pre-Forming.....	290

8.4	Lap Selection and Sequencing	293
8.4.1	The First Cut is the Deepest.....	293
8.4.2	Subsequent Lap Choice	295
8.5	Putting Stone to Lap	296
8.5.1	Knowing When to Stop.....	299
8.6	Cutting Sequence for Facets	301
8.7	Meet Point Faceting.....	304
8.7.1	Why Meet Point?	305
8.7.2	Meet the Future of Faceting	309
8.8	Keeping Track.....	310
8.9	Troubleshooting Cutting	312
8.9.1	Making Mistakes	312
8.9.2	Avoiding Mistakes – Look Before You Leap	313
8.9.3	Look As You Leap	314
8.9.4	Subtle Mistakes	314
8.10	Polishing Technique	316
8.11	How Polishing Works.....	316
8.11.1	A Brief History of Polishing Theory	318
8.11.2	Brittle, Ductile, and Chemical Abrasion.....	320
8.12	Laps and Polishing Agents	323
8.12.1	The Combination is the Key... ..	323
8.13	Pre-Polish.....	324
8.14	The Charge of the Lap Brigade.....	325
8.14.1	Prepping Bonded Polishing Laps.....	326
8.14.2	Prepping Lucite or Metal Laps with Oxide Polish.....	326
8.14.3	Charging Metal Polishing Laps with Diamond	327
8.14.4	Charging Ceramic Polishing Laps with Diamond	329
8.15	Putting Stone to Lap	330
8.16	Polishing Sequence	332
8.17	Troubleshooting Polishing	334
8.17.1	Finding Fault.....	334
8.17.2	Preventing Problems.....	335
8.17.3	Polishing Problems and How to Deal with Them	336
8.18	Cutting and Polishing the Girdle	342
8.19	Cutting and Polishing the Table	343
8.20	A Last Word on Polishing: Warnings and Wisdom	348

CHAPTER 9: FURTHER READING.....	349
9.1 Instructional Books on Faceting.....	350
9.2 Collections of Gemstone Designs.....	352
9.3 Gemstones and Mineralogy.....	355
9.4 Miscellaneous.....	356
GLOSSARY.....	359
INDEX.....	385
VOLUME 1 IMAGE CREDITS.....	399

Volume 2

CHAPTER 10: GEMSTONE MATHEMATICS AND GEOMETRY.....	1
10.1 Introduction.....	2
10.2 Sines of the Times – A Trigonometric Primer.....	2
10.3 Using Trigonometry: Refraction, Snell’s Law, and the Critical Angle.....	8
10.4 Applied Mathematics: Capture the Light.....	10
10.5 Stretching / Shrinking and the Tangent Ratio.....	14
10.5.1 Going Thinner.....	15
10.5.2 Going Thicker.....	15
10.6 Tan Ratio Mathematics.....	16
10.6.1 Doing the Calculation.....	22
10.6.2 Tangent Ratio – The Summary.....	29
10.7 Gemstone Symmetry and Transposing to Another Index Wheel.....	33
10.7.1 Transposing with Paper.....	37
10.7.2 Transposing with Silicon.....	39
10.7.3 Checking the Results.....	39
10.8 Estimating and Calculating Gemstone Size and Yield.....	39
10.8.1 Gemstone Geometry and the Information Block.....	40
10.8.2 Using the Ratios 1 – Fitting Design to Rough.....	42
10.8.3 Using the Ratios 2 – Estimating Yield.....	43
CHAPTER 11: GEMSTONE OPTICS.....	49
11.1 Introduction.....	50
11.2 Catch a Wave.....	50
11.2.1 Wavelength.....	52

11.2.2 Polarization	53
11.3 How Light Rays Interact with Matter	53
11.3.1 It's Not Only a Good Idea – It's the Law	54
11.3.2 What's Really Going On?	55
11.4 Refraction	57
11.4.1 Refraction and Snell's Law	58
11.5 Deriving Snell's Law – A Mathematical Diversion	60
11.6 The Reversibility of Light	62
11.7 Total Internal Reflection	63
11.8 Surface Reflections	66
11.9 Different Paths: A 3D Journey of Light	69
11.9.1 A Walk in the Garden	69
11.9.2 Light Rays and Gemstones	70
CHAPTER 12: GEM MATERIAL PROPERTIES	77
12.1 Why Properties Count	78
12.2 Gemstone Chemistry	78
12.3 Colour	81
12.3.1 An Absorbing Hobby	82
12.3.2 Colouring Agents	84
12.3.3 Colour Variety	88
12.3.4 Depth of Colour	89
12.3.5 Changing Colours	92
12.3.6 Artificial Treatment for Colour	94
12.3.7 Slow Colour Changes and Fading	94
12.3.8 Multi-Colour Gemstones	95
12.4 Birefringence and Pleochroism	97
12.4.1 Gem Design and Orientation for Pleochroism	101
12.5 Refractive Index	102
12.5.1 Refractive Index and Gemstone Design	102
12.5.2 Refractive Index of Common Gemstone Materials	104
12.5.3 Measuring Refractive Index	104
12.6 Dispersion	108
12.6.1 Measuring Dispersion	110
12.7 Other Optical Properties	115
12.7.1 Transparency	115
12.7.2 Luster	115

12.7.3	Cat's Eyes and Star-Stones	115
12.7.4	Wave Effects	116
12.7.5	Aventurescence and Schiller	117
12.7.6	Fluorescence	117
12.8	Density.....	118
12.8.1	Density of Common Gemstone Materials.....	120
12.8.2	Measuring Density.....	121
12.9	Hardness.....	123
12.9.1	Hardness of Common Gemstone Materials.....	124
12.9.2	Measuring Mohs Scratch Hardness	126
12.9.3	Other Hardness Measures.....	127
12.10	Crystal Systems.....	129
12.10.1	Crystal Systems and Habits	130
12.10.2	The Seven (or Eight, or Six) Crystal Systems.....	131
12.11	Cleavage, Fracture, and Streak.....	135
12.11.1	Cleavage.....	135
12.11.2	Fracture	139
12.11.3	Streak	140
12.12	Inclusions.....	140
12.12.1	An Inclusion Potpourri	142
12.12.2	Dealing with Inclusions	143
12.13	Other Physical Properties	145
12.13.1	Heat Sensitivity	145
12.13.2	Thermal and Electrical Conductivity.....	147
12.13.3	Pyroelectricity, Piezoelectricity, and Triboelectricity.....	147
12.13.4	Radioactivity.....	148
12.13.5	Magnetism.....	150
CHAPTER 13	GEMSTONE TREATMENTS.....	151
13.1	Colour Treatment.....	152
13.1.1	How Do Colour Treatments Work?.....	153
13.1.2	Home Colour Treatment?	156
13.1.3	Radiation Treatment and Safety.....	158
13.2	Inclusion Treatment.....	161
13.3	Common Gemstone Treatments.....	162
13.4	Detecting Gemstone Treatments	163
13.5	The Ethics of Gemstone Treatment	164

CHAPTER 14: GEMSTONE MATERIALS	167
14.1 Common Gemstone Materials	168
14.2 Less Common Gemstone Materials.....	182
CHAPTER 15: FACETING ON YOUR COMPUTER.....	187
15.1 Gemma Ex Machina.....	188
15.1.1 Network Resources.....	189
15.1.2 Learning	189
15.1.3 Connecting.....	190
15.1.4 Buying and Selling.....	190
15.2 Selecting the Right Computer	191
15.3 Gem Design and Optimization Software	194
15.3.1 GemCAD Family.....	194
15.3.2 BOG.....	199
15.3.3 Other Gem Design and Evaluation Tools.....	200
15.4 Photo-Realistic Rendering Software	200
15.4.1 Blender / LuxRender	202
15.5 Your First 3D Rendering.....	202
15.5.1 Download, Installation, and Start Up.....	203
15.5.2 Setting the Scene	204
15.5.3 Materializing and Texturizing.....	205
15.5.4 Rendering.....	208
15.6 Computing Gemstones in 3D	210
15.6.1 Three-Dimensional Ray Tracing.....	210
15.6.2 Planar Geometric Projections	211
15.7 Other Software	215
15.8 List of Network Resources	216
15.8.1 General Information and User Groups	217
15.8.2 Clubs, Guilds, and Schools	217
15.8.3 Gem Ethics-Jewelry Organizations and Government Agencies...218	
15.8.4 Online Gemstone Designs.....	219
15.8.5 Faceting Books and Reference Materials	219
15.8.6 Information on Gems and Minerals.....	219
15.8.7 Online Gemology Courses and Learning Material.....	219
15.8.8 Faceting Machine Manufacturers	220
15.8.9 Lap Manufacturers	220
15.8.10 Synthetic and Simulant Gemstone Material.....	220

15.8.11 Other Manufacturers.....	221
15.8.12 Software	221
15.8.13 Miscellaneous.....	222
CHAPTER 16: DESIGNING YOUR OWN GEMSTONE	225
16.1 The Perspiration of Inspiration	226
16.2 Modifying an Existing Design	227
16.2.1 Mix and Match	228
16.2.2 Spinning with Symmetry	232
16.2.3 Playing with Proportions.....	233
16.2.4 Acting on Inspiration.....	236
16.3 Gemstone Design – Tools and Techniques	237
16.3.1 Outlining Your Design.....	238
16.3.2 Building on the Girdle	239
16.4 Design Tools.....	242
16.4.1 Other Design Tools	245
16.5 Design Guidelines – Colour and Sparkle	245
16.5.1 Designing for Colour and Sparkle	246
16.5.2 Colour	246
16.5.3 Sparkle	248
16.5.4 Size and Distribution of Sparkle.....	250
16.5.5 Trading Colour against Sparkle.....	252
16.5.6 Perfect Balance.....	253
16.6 Miscellaneous Design Tips	253
16.7 Against the Odds... ..	258
16.7.1 Do Odd-Main Gemstones Give Better Performance?.....	258
16.8 The Science of Art.....	264
CHAPTER 17: ESTABLISHING THE GEM OUTLINE	267
17.1 Introduction	268
17.2 Why Not Cut the Girdle Directly to the Desired Outline?	268
17.3 Center-point Angle Method (CAM)	270
17.3.1 How Does CAM Work?.....	271
17.3.2 Using CAM.....	273
17.3.3 Real World CAM.....	277
17.4 The OMNI Method	286
17.4.1 How Does OMNI Work?.....	286

17.4.2 Symmetry: The Key to OMNIpotence.....	289
17.4.3 Real World OMNI	290
17.5 Corner Locator Angle Method (CLAM).....	296
17.5.1 CLAM Math	299
17.5.2 CLAMming Up	301
17.6 A Final Word on Gem Outlines	302
CHAPTER 18: CASE STUDY: DESIGNING THE BRIAR ROSE.....	303
18.1 Royal Inspiration	304
18.1.1 The Briar Rose Design Concept.....	305
18.2 The Pavilion: From Inspiration to Design.....	306
18.2.1 Into the Breach – Briar Rose meets GemCAD.....	306
18.2.2 Establishing the Correct Gem Outline	307
18.2.3 Turning the Outline into a Princess	311
18.2.4 Whoaa! Wait a Minute Here... ..	313
18.2.5 Closing the Window	314
18.2.6 A Pavilion Sanity Check	315
18.3 Crowning the Princess... ..	315
18.3.1 Designing the Crown	316
18.3.2 The First Crown Tiers.....	316
18.3.3 Fanning the Crown	319
18.4 Tabling the Issue	321
18.4.1 Whoaa! Redux.....	322
18.5 Optimizing Briar Rose with BOG	322
18.5.1 How BOG Works.....	323
18.5.2 The Merit Function.....	324
18.5.3 Real World BOG	325
18.5.4 Optimizing Briar Rose	328
18.5.5 Exploring MF Mountain	329
18.6 Finishing Up.....	331
CHAPTER 19: NEW GEMSTONE DESIGNS.....	333
19.1 Beginner Designs	334
19.1.1 GeM101	334
19.1.2 Twist5	337
19.1.3 Pyramid Twist	339
19.1.4 Tris de Garnet	341

19.1.5	CLAMour.....	344
19.1.6	Parapet.....	346
19.2	Intermediate Designs.....	348
19.2.1	Fritz15	348
19.2.2	Checkpoint	350
19.2.3	Tabula Rosa	352
19.2.4	Tinkerbell.....	354
19.2.5	Keystar.....	355
19.2.6	Skew Tube	356
19.2.7	Scrambler	357
19.2.8	Briar Rose	359
19.2.9	Green Flash	360
19.3	Advanced Designs.....	361
19.3.1	Sepang.....	362
19.3.2	Heidelberg Brilliant	363
19.3.3	Slice	365
19.3.4	Sakhir	366
19.3.5	FanCZ.....	368
19.3.6	Blinder.....	369
CHAPTER 20: DO-IT-YOURSELF PROJECTS FOR THE FRUGAL FACETER		371
20.1	Tools for Identifying and Characterizing Gem Rough.....	372
20.2	A Density Measuring Device for Identifying Gem Rough.....	372
20.2.1	Measuring Density.....	372
20.2.2	The “Suspension Gizmo”-A Simple Density Measuring Device..	373
20.2.3	Constructing the Suspension Gizmo	374
20.2.4	Example: Measuring the Density of an “Unknown” Garnet.....	375
20.2.5	A Word about Accuracy.....	377
20.3	An Inexpensive Dichroscope	378
20.3.1	How does a dichroscope work?.....	379
20.3.2	Building your Inexpensive Dichroscope.....	379
20.3.3	Using Your Inexpensive Dichroscope	381
20.4	Add-Ons and Enhancements for Your Faceting Machine	382
20.5	A Better Drip Tank	382
20.5.1	Building a Better Drip Tank.....	383
20.5.2	Using the Better Drip Tank.....	384

20.6 A Transfer Cheat Thingy	384
20.6.1 Building the Transfer Cheat Thingy	385
20.6.2 Using the Transfer Cheat Thingy	385
20.7 A Better Depth of Cut Indicator	386
20.7.1 The Depth of Cut Indicator	386
20.7.2 Building the Better DoCI.....	388
20.7.3 Using the Better DoCI.....	391
20.8 A Digital Facet Angle Encoder	391
20.8.1 Why Mess with My Fine Machine?	391
20.8.2 Building the Digital Encoder.....	392
20.8.3 The Mechanics	393
20.8.4 The Electronics	400
20.8.5 The Software.....	404
20.8.6 Calibrating and Using the Encoder	413
20.8.7 Conclusion	414
ACKNOWLEDGMENTS.....	417
INDEX.....	419
VOLUME 2 IMAGE CREDITS	433
